MEDICAL ACUPUNCTURE FOR VETERINARY TECHNICIANS

Educate clients and staff about the science and evidence of acupuncture.

Become an advocate for safe and effective acupuncture.

Assist your supervising veterinarian acupuncturists with treatments and literature searches.

9.5 Hours Online CE

SEE WEBSITE FOR ADDITIONAL REGISTRATION INFORMATION AND COURSE FEES
Presented and directed by Narda G. Robinson, DO, DVM, MS, FAAMA
SCIENCE HAS ARRIVED.
UNDERSTAND HOW ACUPUNCTURE WORKS.

ABOUT THE COURSE
Dr. Narda Robinson designed this course to improve veterinary technicians’ ability to educate clients about ways in which integrative medicine approaches, such as acupuncture, to reduce pain and facilitate recovery.

As healthcare workers that engage directly with clients during intake exams and dismissals, veterinary nurses and technicians are perfectly positioned to cultivate awareness of rational, effective, and science-based medical approaches that reduce reliance on potentially harmful medications and surgery.

Prerequisites:
• Veterinary medical, technician, or nurse training
• Veterinarians may enroll

Course Length:
• 9.5 hours, RACE and NYSED approved

Course Requirements:
• Internet connection
• Access to the Litmos Learning Management System (opens to new enrollees following admission to the program)

COURSE STRUCTURE
This course is delivered entirely online through the Litmos learning management system. Students will access their Litmos account to log in to the course through the link provided upon enrollment.

TECHNICAL ASSISTANCE
If you need technical assistance at any time during the course or to report a problem with Litmos, please contact us at Info@curacore.org.

NOTE: Our curriculum evolves as new information becomes available. The material contained herein is thus subject to change as needed in order to optimize your education.
COURSE GOAL AND OBJECTIVES

The goal of this course is to educate veterinary technicians on the mechanisms of action, indications, technical aspects, and evidential support related to medical acupuncture.

In accordance with the aforementioned goal, our objectives are as follows:

• Develop a scientific understanding of how acupuncture works.
• Compare and contrast medical acupuncture and Traditional Chinese Medicine (TCM).
• List the common indications for acupuncture in the veterinary setting.
• Describe the risks of medical acupuncture for the patient, client, and staff.
• Become acquainted with electroacupuncture units and how they operate.
• Be able to respond to client inquiries about acupuncture with confidence and from an informed perspective.
• Learn how to search the scientific medical databases for evidence concerning medical acupuncture and related techniques.

TOPICS COVERED

• How acupuncture fits into a veterinary practice
• What is western medical acupuncture?
• How does medical acupuncture compare to metaphorical medicine?
• The neurophysiology of acupuncture
• The anatomy of acupuncture
• Neurobiological mechanisms of acupuncture
• The canine myofascial evaluation
• Needle size selection (diameter, length)
• Trigger point deactivation – methods and mechanisms
• Electroacupuncture units – how they work
• How to respond to client questions
• Top 10 ways to respond to integrative medicine skeptics
• How to search for scientific articles on acupuncture
• Legality of veterinary technicians practicing acupuncture

GRADING POLICY/ACTIVITIES

Course participants must achieve a passing grade (>70%) on each assessment in order to complete that portion of the course. Multiple choice questions will be automatically graded by Litmos and Dr. Robinson will grade free text answers. Assessments can be re-taken as many times as necessary.

Length of Access to Course

Each student has 8 weeks from the time of registration to complete the program. If additional time is required, a fee may be imposed. There are no refunds once the student has been enrolled, even if the student does not complete the program.

Viewing Grades in Litmos

Outcomes of graded activities will be available on Litmos as soon as the assessment is evaluated, whether automatically for multiple choice questions or by Dr. Robinson, who grades assessments at least weekly.

OPTIONAL TEXT

LEARN ABOUT OUR RATIONAL APPROACH TO ACUPUNCTURE.

PROVIDE KNOWLEDGEABLE AND SCIENCE-BASED ASSISTANCE TO YOUR VETERINARY ACUPUNCTURIST.

Narda G. Robinson, DO, DVM, MS, FAAMA

Dr. Robinson is a leading authority on scientific integrative medicine from a One Health perspective, with over two decades of practicing, teaching, and writing about integrative medical approaches in both veterinary and human osteopathic medicine.

In 1998, Dr. Robinson launched Colorado State University’s first integrative medicine service and for eight years directed CSU’s Center for Comparative and Integrative Pain Medicine. Over the past two decades, Dr. Robinson has taught a variety of popular, scientifically based continuing education courses, ranging from medical acupuncture and massage to botanical and photomedicine.

Dr. Robinson holds a Bachelor of Arts (AB) degree from Harvard/Radcliffe, a doctorate in osteopathic medicine (DO) from the Texas College of Osteopathic Medicine, and a doctorate in veterinary medicine (DVM) and master’s degree in biomedical sciences (MS) from the Colorado State University College of Veterinary Medicine and Biomedical Sciences. She is a fellow within the American Academy of Medical Acupuncture (AAMA). She also serves on the American Board of Medical Acupuncture, the board-certifying organization for physician medical acupuncturists, and the AAMA Board of Directors.
